

Transforming Utilities Management for Companies

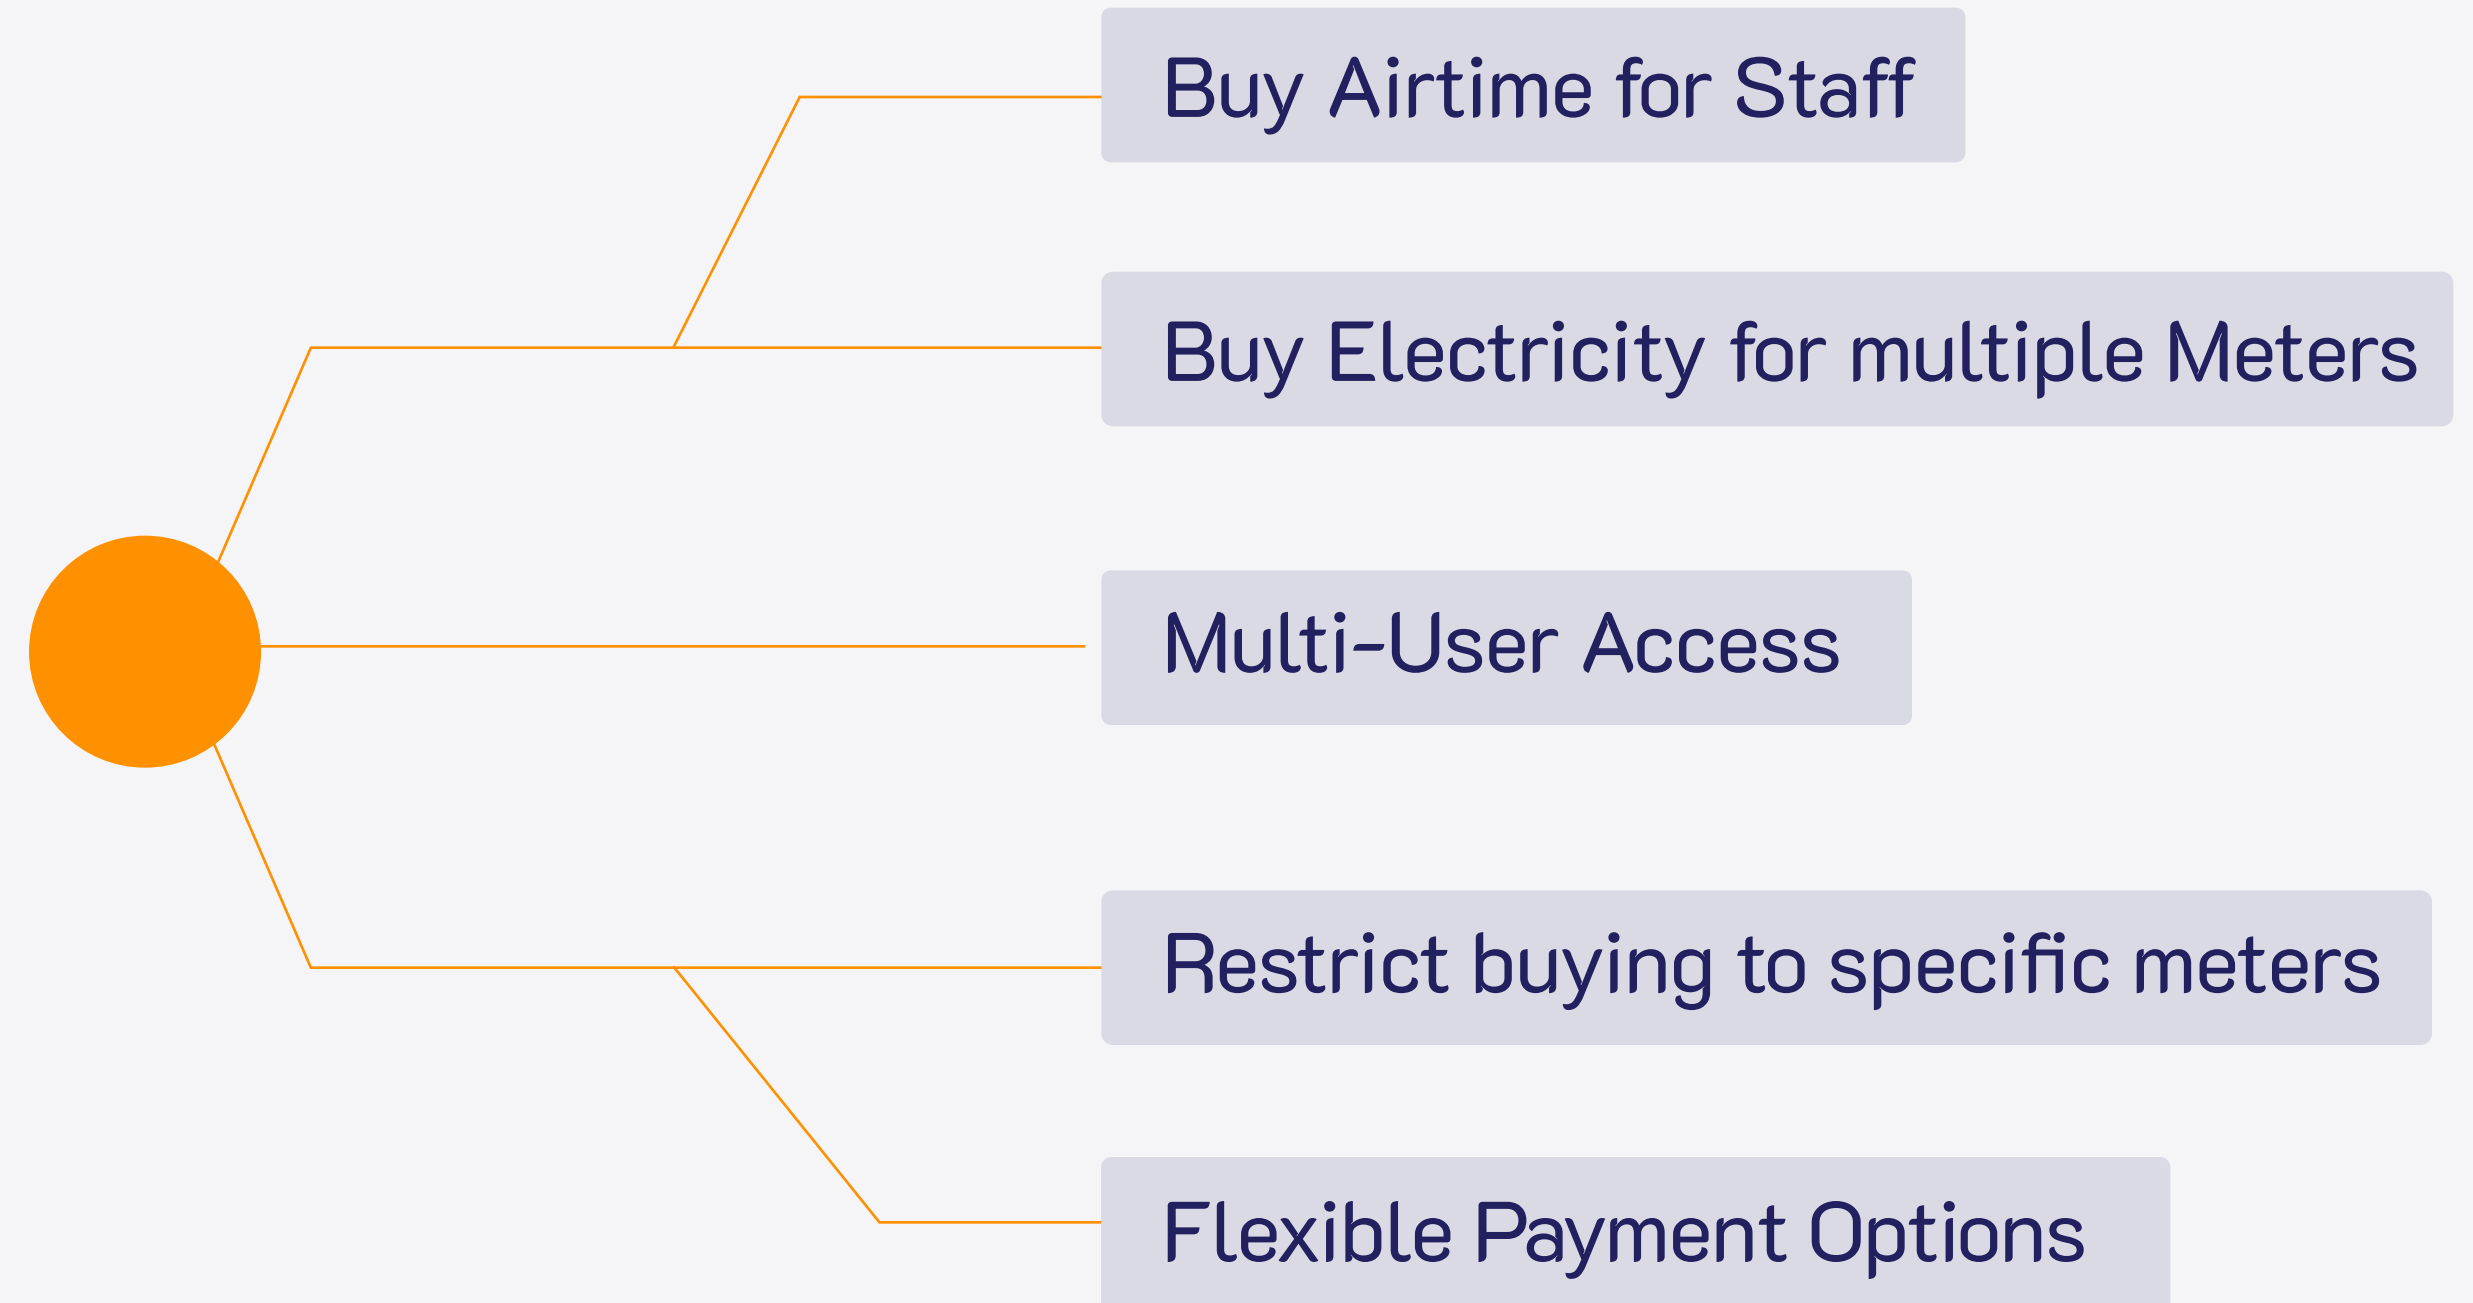

We are the creators of the popular app Nokanda. Capitalizing on the success of our consumer application Nokanda, which now supports over 50,000 users, we are excited to introduce "**Nokanda for Business.**"

This dedicated version is specifically crafted to meet the unique operational needs of businesses and organizations, streamlining the management of essential utilities such as EUCL electricity and MTN airtime.

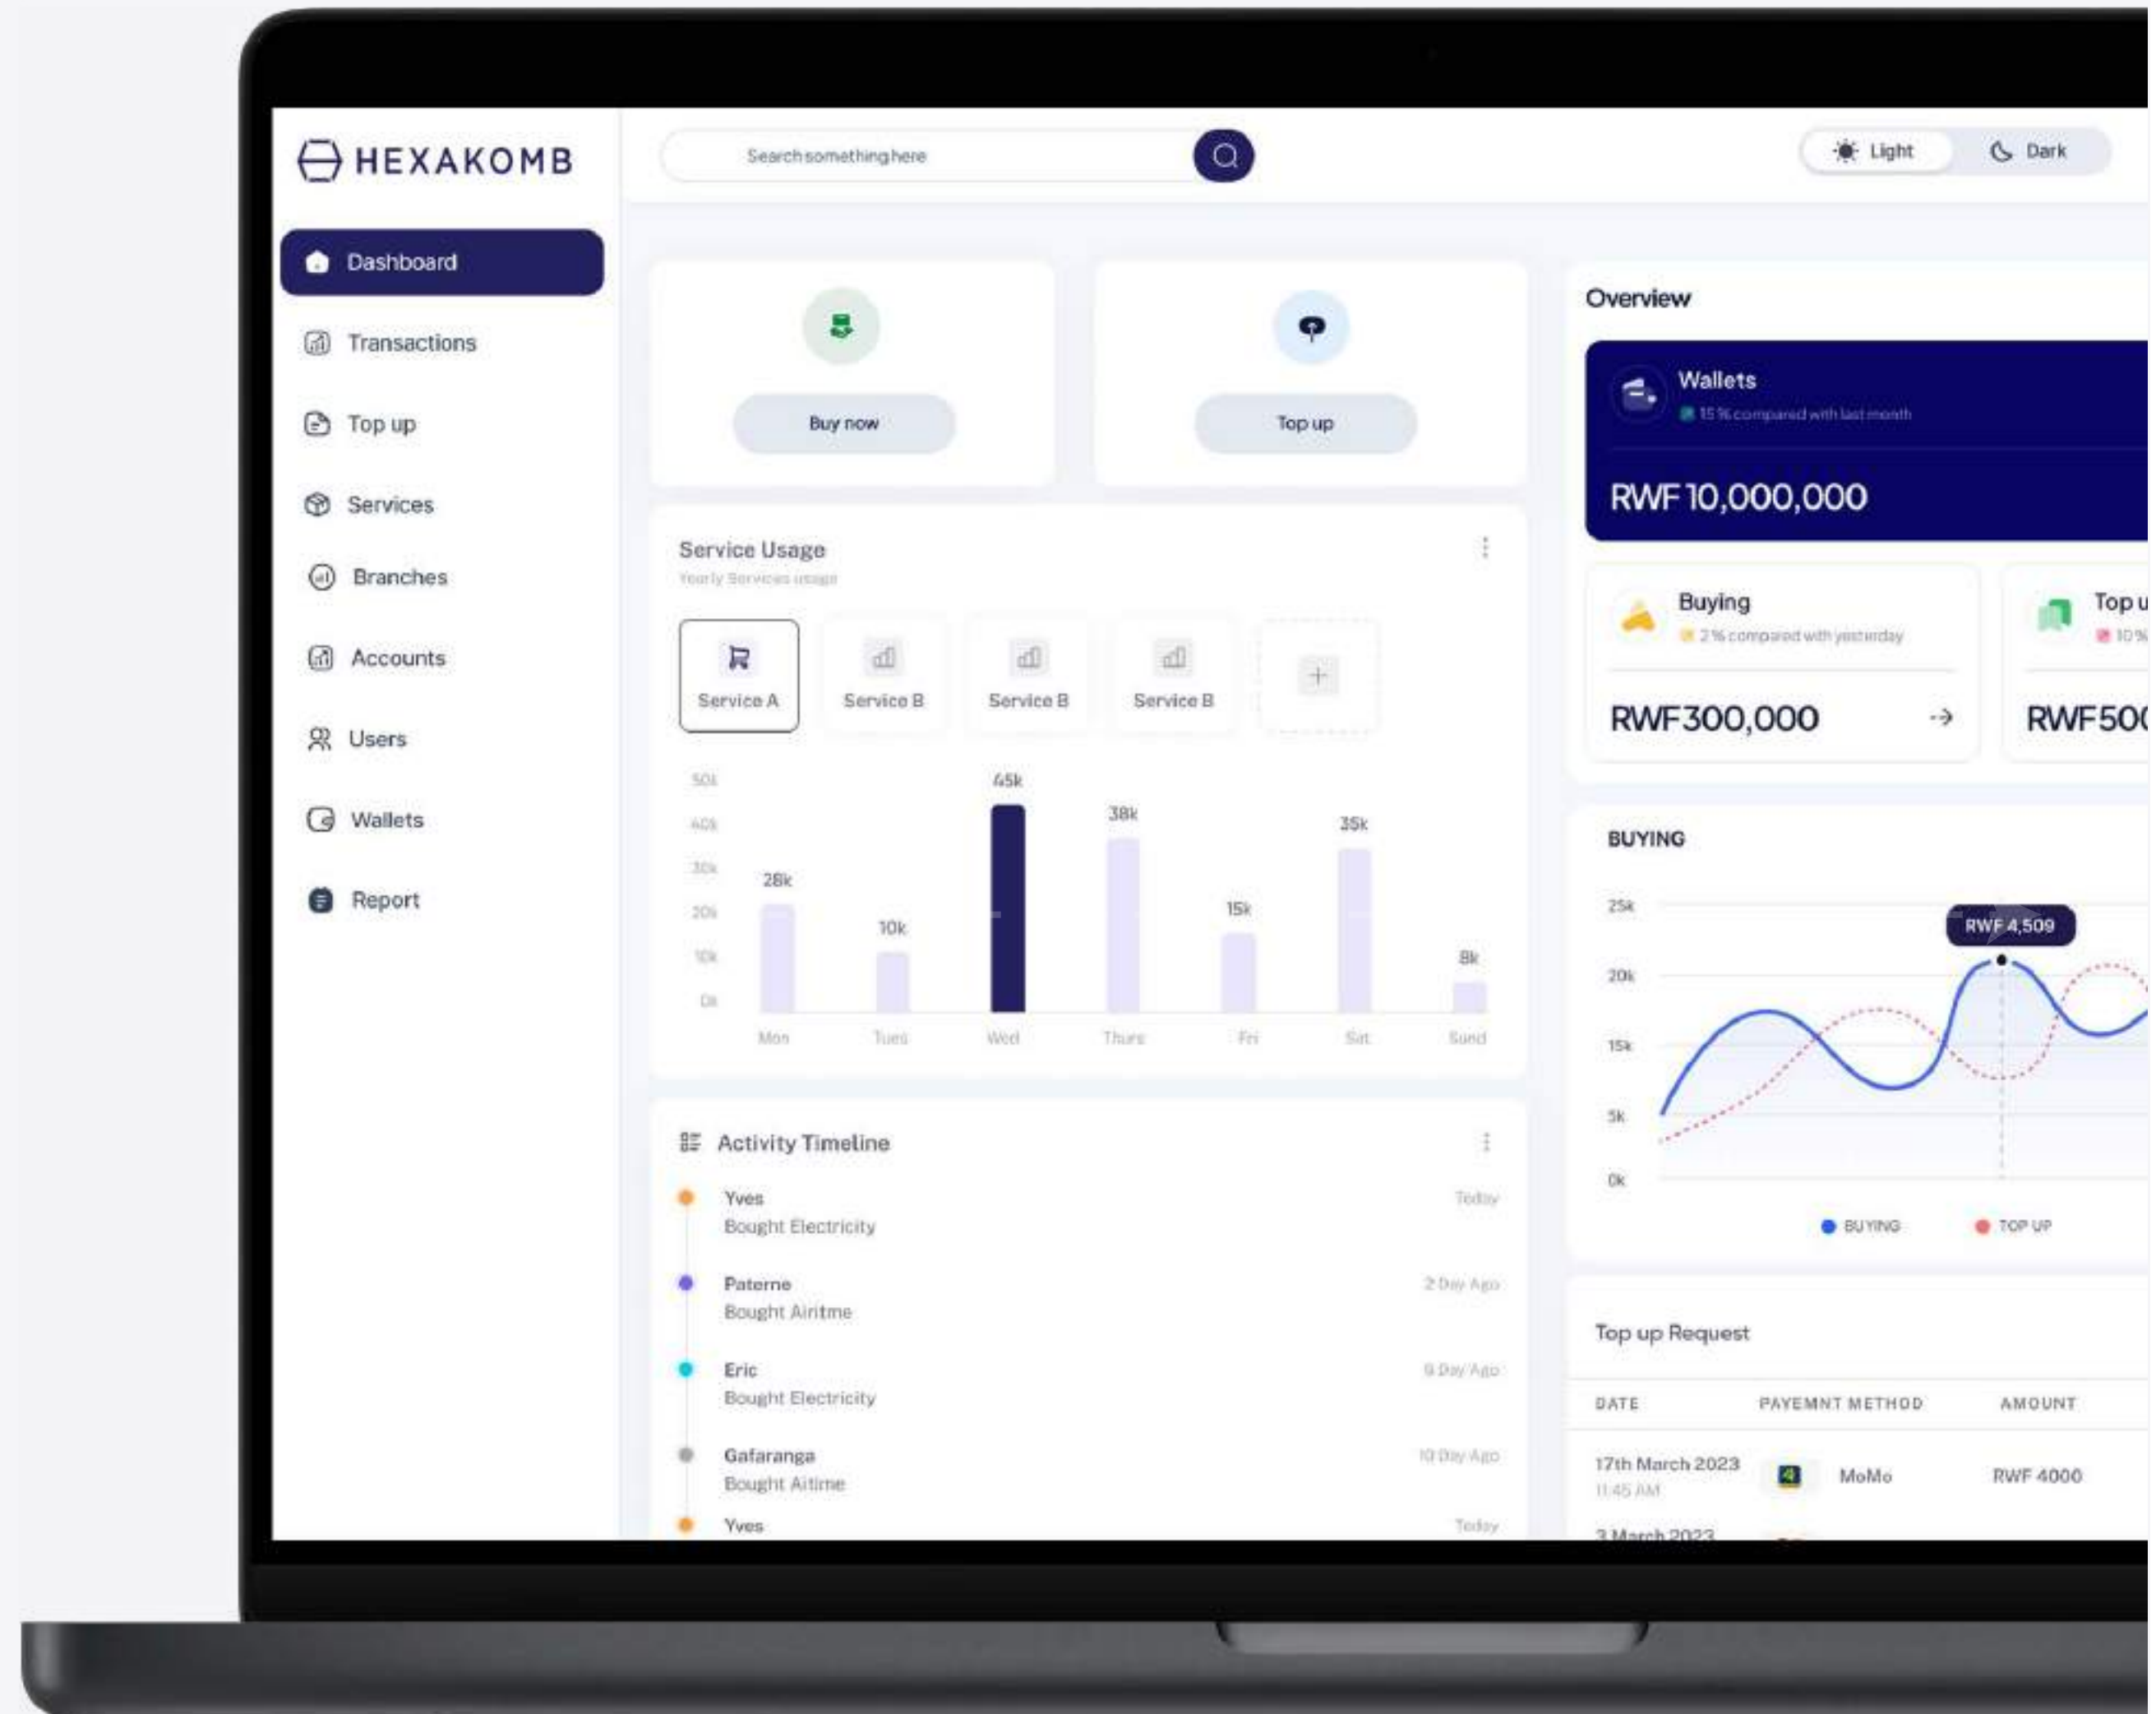

Business-Centric Features

Enjoy services such as bulk purchasing for utilities, invoices, EBM Receipts, and detailed reporting, all designed to enhance your operational efficiency.

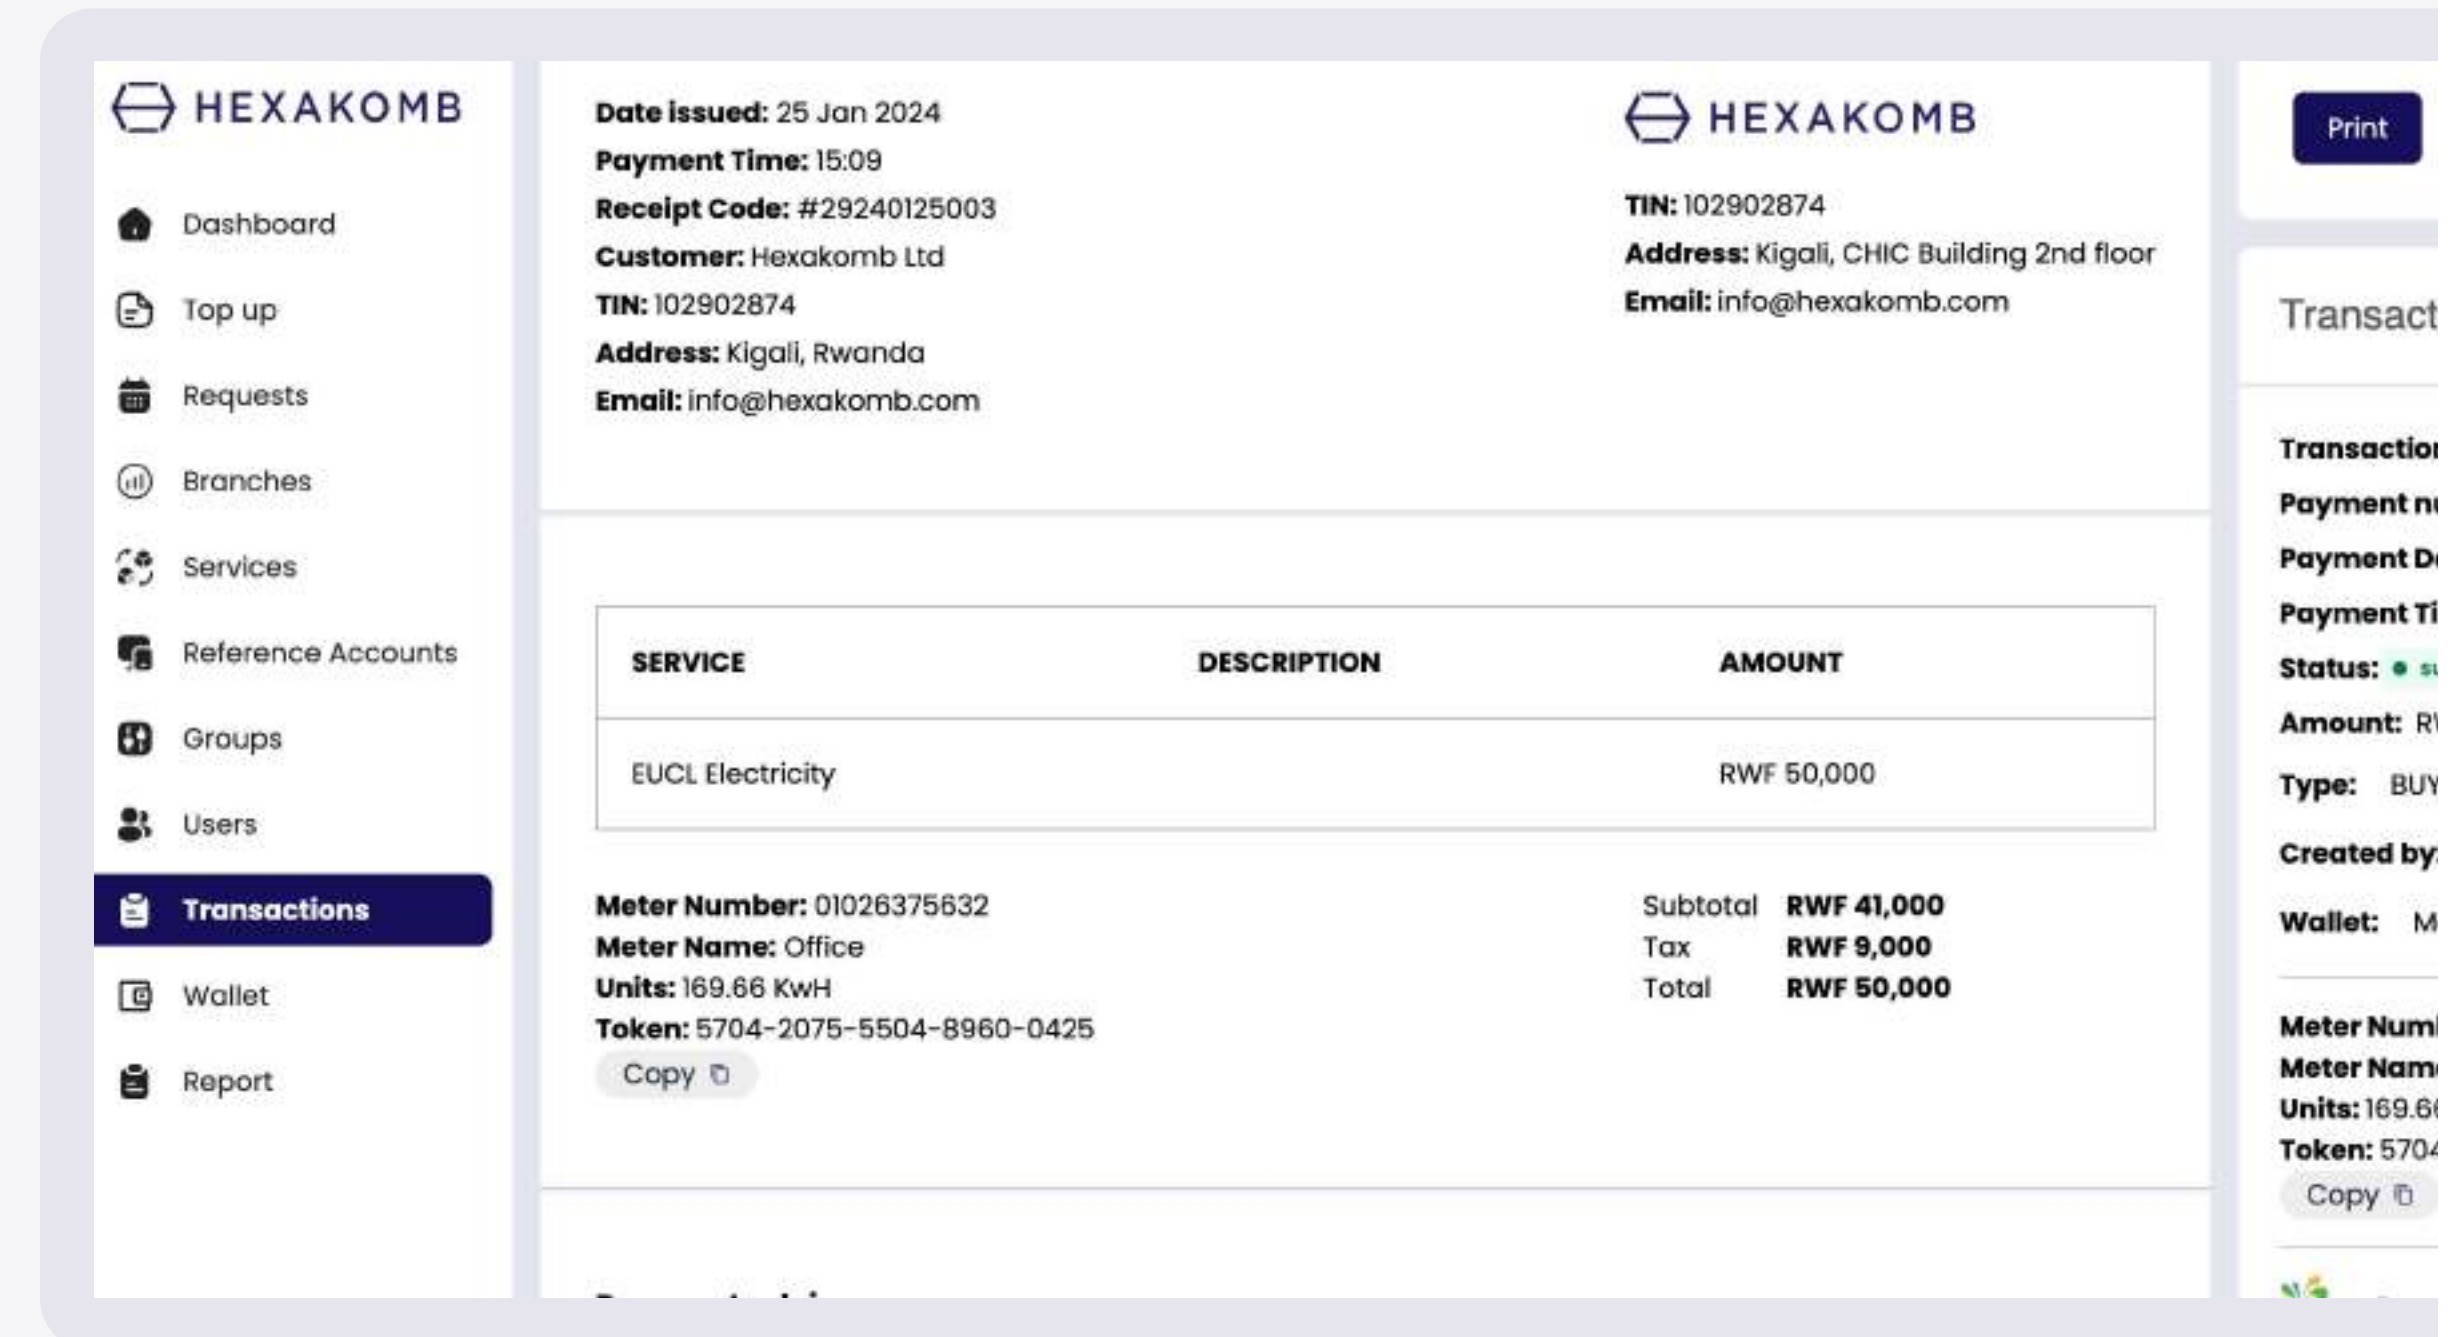

Online Portal

A self service portal available 24/7 accessible via computer, tablet, or smartphone.

Get Invoices

Efficiently manage and access all your utility invoices in one centralized location, ensuring organized record-keeping and easy tracking of expenses.

The screenshot displays the Hexakomb web application interface. On the left is a navigation sidebar with options: Dashboard, Top up, Requests, Branches, Services, Reference Accounts, Groups, Users, Transactions (highlighted), Wallet, and Report. The main content area shows a receipt for a transaction issued on 25 Jan 2024 at 15:09. The receipt details include: Receipt Code #29240125003, Customer Hexakomb Ltd, TIN 102902874, Address Kigali, Rwanda, and Email info@hexakomb.com. A table lists the service as EUCL Electricity with an amount of RWF 50,000. Below the table, meter information is provided: Meter Number 01026375632, Meter Name Office, Units 169.66 Kwh, and Token 5704-2075-5504-8960-0425. A summary table shows Subtotal RWF 41,000, Tax RWF 9,000, and Total RWF 50,000. A 'Copy' button is located below the meter information. On the right side of the interface, there is a 'Print' button and a 'Transaction' section with fields for Payment number, Payment Date, Payment Time, Status (green dot), Amount (RWF), Type (BUY), Created by, and Wallet (M). At the bottom right, there is another 'Copy' button for the meter information.

EBM Receipts

VAT certified invoices provide businesses with a crucial advantage by facilitating the deduction of expenses and reclaiming the VAT paid.

These invoices serve as official documentation for businesses to claim back VAT paid on purchases, thereby reducing overall tax liability and improving cash flow.

*** Note:** Airtime and electricity have 18% VAT.
